Good News for the Animals!

Scientific Consultations Restored to Protect Species

The government has restored protections for our nation's disappearing wildlife and last remaining wild places. The Obama Administration announced they were restoring scientific consultations under the Endangered Species Act to protect species and their habitats.

Secretary of Commerce Gary Locke and Secretary of the Interior Ken Salazar announced that the two departments are revoking an eleventh-hour Bush administration rule that undermined Endangered Species Act (ESA) protections. Their decision requires federal agencies to once again consult with federal wildlife experts at the U.S. Fish and Wildlife Service and the National Oceanic and Atmospheric Administration – the two agencies that administer the ESA – before taking any action that may affect threatened or endangered species.

Laguna Woods to Spay/Neuter Strays

The Laguna Woods city council met on April 15th and passed an ordinance to require spay and neutering in their city for all animals that are picked up. This is a historic first for Orange County. For more info, visit: <http://www.ocregister.com/articles/city-neutered-spayed-2365450-pet-ordinance>.

EU Votes to Ban Seal Fur Products

There's been a huge victory for seals! Thanks to the tireless efforts of activists who sent more than 100,000 letters and e-mails to their Members of European Parliament (MEP) urging them to vote for a ban in the EU on seal fur products from Canada, the MEPs have voted in favor of seals, recognizing that these "hunts" can never be humane.

The ban sends a resounding message to the Canadian government that this bloody massacre must stop once and for all and that the world will not stand by as baby seals are bludgeoned to death in front of their wailing mothers for a product that no one needs. The world is demanding an end to the slaughter.

All eyes are on Canada as it prepares to host the 2010 Winter Olympics. Now is the time to demand that the Canadian government hear the worldwide call to stop this bloody massacre of seals. For people who have not taken action: [Please seize this opportunity to urge Prime Minister Stephen Harper to use his clout to help stop the slaughter](#). And visit <http://www.humanesociety.org/protectseals> for more information on how you can help keep the pressure on the Canadian fishing industry and government.

UC Opts for Humane Education

In May, the University of Cincinnati (UC) announced that it will no longer use purpose-bred animals as part of its curriculum. The University made this official decision after information was released in the report entitled, *"Dying to Learn: Exposing the Supply and Use of Animals in Higher Education,"* authored by Animalearn, the education division of AAVS.

Belgian City Plans "Veggie Days"

The Belgian city of Ghent is about to become the first in the world to go vegetarian at least once a week. There will be a regular weekly meatless day, in which civil servants and elected councilors will opt for vegetarian meals.

Ghent intends to recognize the impact of livestock on the environment. The UN says livestock is responsible for nearly one-fifth of global greenhouse gas emissions, hence Ghent's declaration of a weekly "veggie day." Public officials and politicians will be the first to give up meat for a day. Schoolchildren will follow suit with their own veggieday in September.

It is hoped the move will cut Ghent's environmental footprint and help tackle obesity. Around 90,000 so-called "veggie street maps" are now being printed to help people find the city's vegetarian eateries.

Animal Legislation Updates

- **AB 1122 Passes Floor**

This legislation, which will ban the sale of animals at swap meets and along roadsides, successfully passed out of the Appropriations floor.

For more information about this important bill and its sponsors, visit the [California Animal Association's](#) website.

- **AB 241, the Responsible Breeder Act of 2009, Passes Full Assembly**

This bill addresses the problems puppy mills create by limiting the number of intact cats or dogs a seller can maintain to 50. (This bill does not impact animal shelters, research facilities, pet stores, veterinarians, groomers or boarding facilities.) By limiting the number of animals who can reproduce, this legislation will make enforcement of existing state law possible and enable animal control to more effectively and efficiently deal with complaints about dogs and cats living in squalid conditions and receiving inadequate care.

For more information, visit: <http://www.YESonAB241.com>.

- **AB 1437 Passes Full Assembly**

AB 1437 will ban the sale of battery cage eggs in California, no matter where they were produced. This bill recently passed the California Assembly and now moves to the Senate.

For more information about this bill and how you can help by contacting your state senator, check out APRL's [fact sheet](#).

- **SB 250, the Pet Responsibility Act, Passes Full Senate**

The California Senate just passed this bill, which requires all free roaming cats to be spayed or neutered and requires a license for unaltered dogs. This will prevent millions of animals from being euthanized in shelters and save taxpayers tens of millions of dollars. To contact assemblymembers and for more information, visit: <http://www.yesonsb250.com>.

Wendy's Starts Using Cage-Free Eggs

Wendy's has started to move away from eggs from caged hens. Thanks to activists, the company's modest but meaningful actions will prevent thousands of hens from being crammed into tiny battery cages. Wendy's new policy is the latest advancement in the ongoing transition away from cruel cages on factory farms.

Michael Vick Joins HSUS to Combat Dogfighting

Michael Vick got out of prison and is set to work with the Humane Society of the United States to help combat dogfighting.

According to a recent article in the New York Times: "The Humane Society's position has nothing to do with endorsing Vick's return to football but rather with finding a way to use his visibility to fight the scourge of dogfighting, which Pacelle said is gaining popularity with African-American and Hispanic teenagers in urban areas."

Read the whole article on line at: <http://www.nytimes.com/2009/05/22/sports/football/22rhoden.html>.

Action Items – Your Letters/Calls Needed

Tell P&G to Stop Animal Tests

May 16th was the day of a global boycott of Procter & Gamble (P&G), the corporate giant that still performs unnecessary tests on animals.

[Use this form](#) to contact Alan Lafley, P&G's CEO to protest P&G's animal tests. You can [use IDA's automated message](#) or send your own to let P&G know that you don't believe their claim that they only test on animals "as a last resort" or "when required by law." Let them know that you have read the evidence presented by In Defense of Animals and Uncaged about butylparaben being force-fed to pregnant rats and that you will not purchase Herbal Essences or any other P&G products until they stop testing their products on animals.

[Use this automated form](#) or the following contact information:

Mr. A.G. Lafley, Chairman & CEO, Procter & Gamble, One Procter & Gamble Plaza; Cincinnati, OH 45202; phone: 513-983-1100; fax: 513-983-9369, 513-983-4381; webmail: pg.custhelp.com/cgi-bin/pg.cfg/php/enduser/ask.php; e-mail: comments.im@pg.com.

You can also contact Mary Woods, in charge of Herbal Essences, in their Corporate External Relations Department: Woods.mj@pg.com

For additional information, visit Uncaged's site: <http://www.hurtfulnessences.org/>.

Urge USDA to Terminate Class B Dealer Licenses

For years there has been intense public scrutiny regarding random-source animal brokers called Class B dealers and their methods of obtaining dogs and cats, as well as the care and treatment they provide animals at their facilities. Congress has also voiced concern, calling for the creation of an Institute for Laboratory Animal Research Committee to investigate the issue, and federal legislation aimed at eliminating random-source Class B dealers has been considered.

The majority of random-source Class B dealers have committed violations of the Animal Welfare Act (AWA). Rather than continuing to repeatedly cite random-source Class B dealers with AWA violations, let the USDA know that they should terminate these licenses.

Visit the American Anti-Vivisection Society's action page to contact the USDA:
<https://secure3.convio.net/aavs/site/Advocacy?cmd=display&page=UserAction&id=175>.

Ask Assemblymembers to Support SB 250, the Pet Responsibility Act

SB 250, the Pet Responsibility Act, recently passed the California Senate and now moves to the Assembly floor.

This legislation requires all free roaming cats to be spayed or neutered and requires a license for unaltered dogs. This will prevent millions of animals from being euthanized in shelters and save taxpayers tens of millions of dollars.

SB 250 proves a reasonable, fiscally responsible step towards reducing pet overpopulation in California in two ways: by fostering responsible pet guardianship through increased animal licensing, and by offering incentives for guardians to spay and neuter their companion animals. Please help reduce the suffering of dogs and cats in our shelters, and support the overburdened shelter staff that cares for them!

To ask assemblymembers to support this important bill – and for more information – visit:
<http://www.yesonsb250.com>.

APRL/OCPA Foie Gras Demo – Friday, June 12th from 6:30 to 8:30 p.m. at Da Vinci's Restaurant in Long Beach

Join OCPA and the Animal Protection and Rescue League (APRL) at the next foie gras demo scheduled for Friday, June 12th from 6:30 to 8:30 p.m. at Da Vinci's Restaurant, 2801 E Spring Street, # 300, Long Beach, CA 90806; 562-685-8111; <http://www.davincilb.com>.

As you may already know, foie gras is created by forcibly restraining ducks three times a day while a rough steel pipe is shoved down their throats to overfeed them to the point that their livers swell to more than 10 times the normal size.

The foie gras campaign has resulted in several local restaurants such as Five Feet, the Sky Room, Mr. A's, and Laurel's removing foie gras from the menu.

Please help us make Orange County foie gras-free. We have signs and banners. We just need your presence to help the animals. Please contact julie.meskell@ocpausa.org if you'd like to carpool. For more information, visit: <http://www.aprl.org/foiegras.html>.

IDA's Annual International Day of Action for Elephants in Zoos – Saturday, June 20th at Various Locations

IDA invites you to participate in the first International Day of Action for Elephants in Zoos (IDAEZ), a global event aimed at bringing mammoth attention to the plight of elephants in zoos, and ending their suffering.

On Saturday, June 20th, pro-elephant advocates will turn out en masse at their nearest zoos, holding outreach events and demonstrations to educate the public about the tragic effects of keeping elephants in small, impoverished zoo pens where they suffer and die prematurely.

Elephants are highly intelligent, complex and self-aware individuals who have evolved for long distance living. In the wild they range tens of miles a day, live in large, tight-knit family groups, and communicate with one another at great distances. Yet zoos keep elephants in tiny exhibits of a few acres or less, where lack of movement and standing on hard surfaces cause painful foot infections and arthritis, the leading causes of euthanasia in captive-held elephants. The stress and boredom typical of intensive confinement results in abnormal behaviors such as repetitive swaying and head bobbing. In addition, many zoos still use a cruel, circus-style management method based on negative reinforcement and the use of bullhooks (a steel-tipped device similar to a fireplace poker) to poke, prod, stab and beat elephants into submission.

The elephants need your help! That's why IDA is urging everyone to participate in this very special day by coordinating or joining an event at your community's zoo. Your event can be as simple as handing out leaflets and holding signs, or you can create educational displays and provide petitions for people to sign. IDA will assist you by providing event materials including leaflets and fact sheets, helpful tips and more.

For more information, visit <http://www.helpelephants.com/> or contact IDAEZ Event Coordinator Melissa Gonzalez: Melissa@idausa.org; phone: 707-981-7701.

Puppy Store-Free Orange County Campaign – Saturdays Ongoing in Mission Viejo, Brea and Thousand Oaks; Training Meeting – Saturday, June 13th at 1:00 to 3:00 p.m. in Ladera Ranch

The puppy store-free Orange County campaign is expanding to the Brea Mall, where Barkworks sells puppies.

Best Friends, OCPA and others have been holding educational demonstrations at the Barkworks Store at The Shops of Mission Viejo Mall for only six weeks and have already had a significant impact! This means that we are educating the public and they are choosing not to shop, but to adopt.

Right now Best Friends has a regular presence at the Barkworks at the Westside Pavilion in L.A. and at The Shops of Mission Viejo Mall in O.C., while Last Chance for Animals holds demonstrations at the Barkworks store in Thousand Oaks.

At the end of a day of volunteering, it is a great feeling to know that you made that difference. If you are interested in volunteering in Brea, please contact Barb at gregandbarb@cox.net with available times and commitment levels. The Brea Mall tabling schedule will most likely be: Every Saturday 12:00 until 5:00 (one person needed for the entire shift); 12:00 until 2:30 (one person needed to volunteer for the first half the shift); and 2:30 until 5:00 (one person needed to volunteer the second half of the shift).

Best Friends is also planning another training meeting – for both new and experienced volunteers – on Saturday, June 13th from 1:00 to 3:00 p.m. at the Remington Apartment complex located at 25501 Crown Valley Parkway, Ladera Ranch, CA 92694.

Topics will include: The purpose of the "A Puppy Store-Free" Campaign; what has been accomplished by the Los Angeles Best Friends Group; review all the material used when protesting; the "most frequently asked questions;" answer any questions and concerns; future plans for the campaign and how you can make a difference; confirm that we are all consistently using the same terms and saying the same things.

After attending the training session, you should feel comfortable talking with people about irresponsible breeders and should be knowledgeable in answering their questions.

Please RSVP Barb Holcomb at gregandbarb@cox.net and let her know if you can make it or not.
